

Support cardiovascular health and wellbeing

Ancient cultures consumed garlic for its beneficial attributes. For thousands of years Garlic has traditionally been used as a culinary spice and medicinal herb. Hippocrates, wrote of the use of garlic for many conditions, including the treatment of parasites, respiratory problems, poor digestion, and low energy. Its use in China was first mentioned in A.D. 510, while Louis Pasteur studied the antibacterial actions of garlic in 1858. Garlic's effectiveness as a herbal wellness agent has been demonstrated by thousands of years of traditional use and more recently by clinical research.

Why supplement with Garlic?

Given garlic's ability to support the immune system, it is the must have herb in any household to support your family's health and wellbeing. Garlic helps to alleviate the symptoms of the common cold and influenza, as well as relieve catarrh.

Garlic's medicinal properties are attributed to the active constituents Alliin, Allicin and other powerful antioxidants. The underlying components in garlic support the cardiovascular system by helping to maintain healthy cholesterol levels in healthy individuals. Many people use garlic to support a low-cholesterol, low-fat diet, for cardiovascular support.

Who can benefit from a Garlic supplement?

Anyone who:

- Is looking for relief of the symptoms of colds, influenza and catarrh
- Is interested in maintaining healthy cholesterol levels
- Is interested in maintaining good heart health

The NUTRIWAY Advantage

Nutriline, the manufacturer of NUTRIWAY supplements, is the leading global brand of vitamins, minerals and dietary supplements¹, producing high-quality products using plant concentrates for the past 70 years. We are the only global vitamin and mineral brand to grow, harvest and process plants on our own certified organic farms. We control the entire process from seed to supplement, to bring you the best of nature, and the best of science.

1. Based on sales in 2004. In tablet and capsule form. Euromonitor International.

Why NUTRIWAY Garlic Heart Care Formula?

The NUTRIWAY Garlic Heart Care Formula contains pure concentrated garlic. The garlic used in our formula is sourced from the highest quality and has been dehydrated without additives or excessive heat. In a patented process that helps it to retain its natural qualities to deliver garlic's key ingredients Allicin and Alliin in a coated tablet that includes soothing peppermint oil. The coating delays the release of the garlic in the tablet until it reaches the intestinal tract, to minimize "garlic breath."

Many recent studies have shown that garlic may help support healthy blood cholesterol levels by reducing serum cholesterol and triglyceride levels, thus assisting in maintaining a healthy heart. In addition, garlic may also relieve the symptoms of colds, flu and catarrh.

The NUTRIWAY Garlic Heart Care formula provides clinically significant levels of Alliin and Allicin giving you the option of taking garlic without suffering its unpleasant odour side effect. The use of NUTRILITE peppermint concentrate results in a GARLIC THAT DOESN'T TALK BACK®, to help overcome garlic's unpleasant odour.

- Contains 385 mg of concentrated Garlic (equivalent to 1200 mg of fresh garlic bulb). The Garlic's antioxidant properties control total serum cholesterol and triglyceride levels and inhibit the oxidation of LDL cholesterol. This activity helps to prevent atherosclerosis, an ailment characterised by the "hardening" of the arteries in which atherosclerotic plaque develop on the inner walls of arteries and obstruct blood circulation. Thereby, making garlic an ideal supplement for heart care and may assist in maintaining a healthy heart.

The concentrated garlic powder also provides relief of the symptoms, severity and duration of cold, flu, catarrh and may also support healthy blood cholesterol

NUTRIWAY® GARLIC HEART CARE FORMULA

HERBAL SUPPLEMENT

NUTRIWAY® GARLIC HEART CARE FORMULA

- Contains natural mint flavour from a soothing peppermint oil
- NUTRILOCK coating to make tablets easier to swallow
- NO artificial colour, flavour or preservatives added
Especially suitable for those who want to avoid artificial additives

Keep bottle tightly closed. Store in a cool, dry place below 25 °C.

Active Ingredients

	Per Tablet
Allium Sativum (Garlic) Bulb Powder	385 mg
Equivalent Garlic Powder	1200 mg
Equivalent amount of Allicin	3.0 mg
Equivalent amount of Alliin	6.7 mg

Complementary supplements: NUTRIWAY Double X – Contains high potency vitamins and minerals, with exceptional Nutrilite Concentrates, the PHYTOFACTORS® Plant Compounds which provide bioflavonoids, antioxidants and other phytonutrients

NUTRIWAY Cholesterol Health – Clinical trial results show Cholesterol Health, made with naturally sourced tea extract, helps to control LDL cholesterol (bad) and thus helps maintain a normal LDL/HDL ratio in people with a healthy lifestyle and diet.

Why are phytonutrients important?

Nature created plants, fruits and vegetables to be full of other nutrients beyond vitamins and minerals, called phytonutrients. Research has shown that a diet high in phytonutrients can help decrease degenerative disease.

That's why our supplements are a combination of essential vitamins and minerals and the exclusive Nutrilite PHYTOFACTORS® Plant Compounds, for additional bioflavonoids, antioxidants and other phytonutrients, because of their valuable role in protecting your health.

Frequently Asked Questions

Q. Why use a garlic supplement rather than eating garlic?

A. Even people who like garlic don't eat it every day. A 2-tablet daily serving of NUTRIWAY Garlic Heart Care Formula gives you 6 mg of allicin and 13.4 mg of alliin, equivalent to 2,400 mg of dry garlic.

Q. I don't eat garlic because of the odour. Will I have the same trouble with this supplement?

A. NUTRIWAY Garlic Heart Care Formula tablets contain a natural, soothing peppermint oil and has an enteric coating so they pass right through the stomach and only release their contents into the intestinal tract, minimising "garlic breath."
