The new G&H Nourish+™ body care range is a summer skincare essential

The Summer sun lures us to the warmth of the outdoors, but it is also the prime time for skin to be exposed to the sun and other environmental elements, leaving it dry and dehydrated. The G&H Nourish+™ product range helps nourish, comfort and maintain healthy-looking skin, ensuring skin stays soft and smooth all summer long.

G&H Nourish+ contains gentle formulas that are blended with natural ingredients including Orange Blossom Honey, Shea Butter and Pumpkin Seed Oil that help relieve and soothe dry skin without irritating. Providing up to 24 hours of nourishment, it improves moisture and helps protect skin from skin-drying environmental damage.

This body care range is biodegradable, free of sulphates and dyes, and is not tested on animals. Dermatologist and allergy tested, G&H Nourish+ body care is designed for the whole family*.

On top of this natural, nourishing and restorative range, all bottles and cartons are 100% recyclable and manufactured with 100% electricity from wind power.

The G&H Nourish+ range includes:

- Body lotion – easily absorbed and boosts skin's moisture for up to 24 hours
- Body wash – sulphate-free formula gently cleanses and leaves skin feeling hydrated and nourished
- Hand cream - a restorative and nourishing, water-resistant hand cream that leaves skin feeling moisturised for 24 hours
- Complexion bar - non-drying, translucent complexion bar gently cleanses the face and body

Show your skin some love this summer and keep it nourished with the G&H Nourish+ range.

MEDIA RELEASE
